Name Firstauthor  * ¹, **Name Secondauthor**  ², **Name Thirdauthor**  ^{1,3}

¹Department of Earth Sciences, A University, City, Country, ²School of Earth Sciences, Another University, City, Country,

³Center for Studying Cool Things, University of X, City, Country

Author Contribution Statements

Geomorphica mandates that all authors take public responsibility for their submitted works. The contributions of all authors must be described in this section. An author's name may appear multiple times; however, it must appear at least once. For instance, "N.F. and N.S. conceptualized the research. N.S. and N.T. conducted field surveys. N.F. and N.T. handled XYZ analysis, etc." All authors must affirm that they have reviewed the results and endorsed the manuscript's final version for publication. For single authors, use the statement: "Author A.B. confirms sole responsibility for the study's conception, design, data collection and analysis, interpretation of results, and manuscript preparation."

Acknowledgements

Express gratitude towards all individuals and/or entities that contributed to the work's completion. If specific permissions were obtained for the research (e.g., access to restricted areas, data, or materials), mention them here. Do not include funding source information in this section.

Data and Code Availability

Authors must guide readers to an open-access repository where the study's data and code are accessible. Zenodo, figshare, and Dryad are recommended repositories for archiving data and code. Include citations for datasets and code in the references. While GitHub is not deemed a permanent repository, authors are advised to archive a GitHub-hosted code snapshot on Zenodo.

*Corresponding author: a.firstauthor@university.edu

Funding Statement

Geomorphica requires authors to specify any funding sources (institutional, private, or corporate) supporting the reported work. This information should list the funding organization(s) and grant number(s) (if applicable), and it should be provided upon submission. If no funding was received, authors should state: "This research did not receive any specific grant from funding agencies in the public, commercial, or not-for-profit sectors."

Conflict of Interest Disclosure

Declare any competing interests, financial or otherwise, pertaining to any of the authors. If there are none, state that the authors have no competing interests.

Permission to Reproduce Material from Copyrighted Sources

If this manuscript reproduces content (texts, figures, videos, codes, or other materials) from copyrighted sources, detail the obtained permission(s) here. If none, simply state: "The authors declare that no material from copyrighted sources was reproduced in this manuscript."
